Science Activity Books

SPACE SCIENCE

The Good AND THE Beautiful
CURRICULUM

Lesson 1

Cross out the items in the key as you find them in the picture. Color the picture.

KEY

Trace each line from a telescope to the object it discovered. Color the pictures.

Lesson 2

In each row, color the two planets that are the same size.

Draw tails on the ends of the comets. An example comet is below, to the right. Color the picture to make it look like outer space.

Lesson 3

Trace the lines to create constellations.
Color the picture.
